

Saybr Contractors, Inc. is currently seeking an experienced Petroleum Construction Superintendent for the greater Seattle-area market. The successful applicant should have a minimum of five years of Fuel System and Petroleum construction experience, including the installation, maintenance, and decommissioning of aboveground and underground fuel storage systems at retail gas stations, fleet and maintenance fueling locations, backup and emergency generators, and other sites.

The Pacific Northwest is growing and our economy is strong. Saybr is actively searching for the right team members to help us grow our business! We have been in business since 1997 and has been profitable every year since our inception. We run a financially strong, well-managed organization that recognizes the value of our employees.

If you feel you have what it takes to contribute to our growth and want to make a move to the great Pacific Northwest please contact us at [info@saybr.com](mailto:info@saybr.com)

More specific information regarding the position is included below:

The purpose of the Petroleum Construction Superintendent is to successfully complete a variety of fuel system/petroleum construction projects through the supervision and execution of the day to day filed operations. Primary duties include jobsite safety, scheduling the workforce, coordination of all subcontractors and owner contractors, quality control, material procurement, preparation of timecards and daily reports.

The ideal candidate will be ICC-Certified and hold current certifications in petroleum specific industry products.

Additionally, the successful candidate must demonstrate the following skills and expertise:

- Exhibit a clear understanding of how to control the outcome of an assigned construction project through the use of a variety of technical & interpersonal skills and managing field personnel.
- Demonstrate highly organized behavior and effectively utilize this skill set to manage work.
- Able to perform surveillance quality control inspection on multiple crews and subcontractors.
- Demonstrated experience scheduling and coordinating subcontractors.
- Demonstrated experience in material procurement, including scheduling and coordinating deliveries to the job site.
- Demonstrated experience implementing comprehensive quality control programs for a variety of construction tasks.
- Demonstrated experience enforcing safety codes and regulations. Must practice safe work habits at all times by understanding, following, and enforcing company and industry safety rules, practices, and procedures; wearing prescribed safety apparel; and taking appropriate action when conditions threaten safety of self or coworkers.
- Strong working knowledge of project scheduling, phasing, sequencing, and plan review.
- Ability to verify accuracy of dimensions of installations and layouts.
- Ability to observe work in progress to ensure that procedures followed and materials used conform to specifications.
- Capable of examining quality of finished work for compliance and provide approval for installation.
- Able to interpret drawings and specifications to ensure compliance with specifications and other regulations governing construction.

- Capable of maintaining detailed records of quantities of materials received or used during specified periods and maintaining detailed daily log of construction and inspection activities.
- Able to prepare as-builts to record deviations from master plans.
- Self-starter with good documentation skills.
- Able to meet challenges and deadlines while maintaining quality and safety goals.
- Able to develop and maintain relationships with project personnel, the customer, subcontractors and other third-party representatives impacting the outcome of the project.
- Demonstrated proficiency using computer and company communication tools, such as email, web browsers, and Microsoft Office products.

Other Requirements:

- Eligible for military base access based on thorough FBI background investigation.
- Able to pass pre-employment drug screening.
- In possession of a valid Washington State Driver's License with a clean driving record.
- Reliable transportation to and from job sites and willingness to travel.

Salary will be dependent upon experience (Prevailing Wage paid on government work as required). Saybr offers comprehensive medical and dental insurance coverage following one month of employment. Employees are eligible to participate in the company's 401k/retirement plan following three months of employment.

Saybr Contractors, Inc. is an equal opportunity employer. We encourage diversity in our workforce. Saybr provides equal employment opportunities to all applicants for employment without regard to race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, disability, genetic information, marital status, amnesty, or status as a covered veteran in accordance with applicable federal, state and local laws.

Qualified Candidates, please email resume to [info@saybr.com](mailto:info@saybr.com).
